

Traditional Mirrors

Ten beautiful reproduction mirrors, mainly of the 18th & 19th centuries, in a variety of sizes and styles. In the majority of cases the frames have been cast from valuable antique originals, and are available in gilt or wood finishes. To further enhance their authenticity, every detail of the original's back is reproduced, receiving almost as much attention as the decorated front. Supplied fully glazed with 4mm flat glass (we are pleased to quote for bevelled glass, or frame only).
